

PASSAGE Parent, Student and Rider Onboarding Framework

This document outlines the PASSAGE onboarding framework for parents, students, and riders. It covers the digital rider onboarding process only. Physical verification, training, certification, and rider activation are addressed in separate operational procedures.

****Developer Note****

This document is intended to support the design and development of the PASSAGE onboarding experience, including registration, information collection, verification, and consent capture workflows.

References to Terms of Service, Privacy Policies, Child Data Protection Notices, declarations, consents, acknowledgements, and other compliance-related content are included to illustrate where these interactions occur within the user journey.

PASSAGE Onboarding Model

- Parent and student onboarding is parent-led.
- Rider onboarding includes digital registration followed by physical verification
- Schools may participate as strategic partners but are not required.
- Student verification is supported by parent verification and school-related documentation.

1. Parent & Child Registration

Step 1: Parent Account Creation (Mandatory)

The parent creates an account by providing:

Full Name *

National ID Number *

Phone Number *

Alternative Phone Number

Email Address *

The parent then verifies their phone number via OTP.

Before account creation is completed, the parent must agree to these terms: *

☐ [I have read and agree to the PASSAGE Terms of Service, Privacy & Child Data Protection Notice.](#)

☐ [I confirm that the information provided is accurate.](#)

(Place holder Terms are provided at the end of this section after Step 4)

Outcome: Parent Account Created

Step 2: Child Registration (Mandatory)

The parent registers the child by providing:

First Name *

Last Name *

Date of Birth *

Gender *

School Name *

School Location *

Class / Grade *

The parent uploads:

Child Passport Photo *

Optional supporting school documents:

- ☐ School ID
- ☐ Unavailable

Outcome: Child Profile Created

Step 3: Emergency Contact (Mandatory)

The parent provides:

- Full Name *
- Relationship *
- Phone Number *

This contact will only be used during emergencies or where PASSAGE is unable to reach the parent.

Step 4: Authorized Guardians (Optional)

PASSAGE collects authorized guardian information to ensure children are only handed over to trusted individuals where required, when a parent is unavailable.

The parent may add one or more authorized guardians.

For each guardian:

- Full Name *
- Relationship to Child *
- Phone Number *

PASSAGE Parent Policy, Privacy & Consent Framework (Placeholder Content)

(This section contains placeholder policy content for onboarding workflow design. Final legal, compliance, and policy content will be developed with appropriate legal input and provided separately prior to production deployment.)

Welcome to PASSAGE

PASSAGE is committed to providing safe, reliable, and secure transportation services for students and peace of mind for parents and guardians.

By creating an account and registering a child on PASSAGE, you agree to the following terms.

Parent Information

PASSAGE may collect the following information from parents and guardians:

- Full Name
- National ID Number
- Phone Number
- Alternative Phone Number
- Email Address

PASSAGE may also collect information relating to:

- Authorized Guardians
- Emergency Contacts

This information is used for account creation, identity verification, communication, transportation operations, and emergency response.

Child Information

PASSAGE may collect the following information about registered children:

- Full Name
- Date of Birth
- Gender
- School Name
- School Location
- Class / Grade
- Child Photograph

This information is collected solely for transportation, safety, safeguarding, identification, and emergency response purposes.

Child Privacy & Data Protection

Child information is only accessible to:

- The parent or guardian who registered the child
- Authorized PASSAGE personnel with a legitimate operational need

- Parent can edit child information.
- Rider cannot edit child information.
- PASSAGE administrators can update verification records.

The following information is not visible to riders:

- Child Full Name
- Child Photograph
- Date of Birth
- Parent Information
- School Documents
- Identification Documents
- Emergency Contact Information

Riders will only have access to the minimum information required to safely complete transportation services.

This includes:

- Child First Name
- First Letter of the Child's Last Name
- PASSAGE ID Number

Example: **Sharon (K-192)**

Where:

- Sharon = Child's First Name
- K = First Letter of the Child's Last Name
- 192 = PASSAGE ID Number

Information Sharing

PASSAGE does not sell, rent, or share parent or child information with third parties for marketing purposes.

Information may only be disclosed:

- Where required by law
- During emergencies
- To approved service providers supporting PASSAGE operations under confidentiality obligations
- To schools where necessary to facilitate transportation services

Parent Responsibilities

Parents and guardians agree to:

- Provide accurate information
- Keep account information up to date
- Register only children for whom they are legally responsible
- Provide accurate pickup, drop-off, guardian, and emergency contact information
- Ensure that authorized guardians have permission to receive the child
- Notify PASSAGE of any significant changes affecting transportation arrangements

Account Responsibility

Parents are responsible for maintaining the confidentiality of their login credentials and for activities conducted through their account.

Data Security

PASSAGE takes reasonable administrative, technical, and operational measures to protect personal information from unauthorized access, misuse, loss, alteration, or disclosure.

Consent

By creating an account and registering a child, you confirm that:

- You are the parent or legal guardian of the child being registered.
- The information provided is accurate to the best of your knowledge.
- You consent to PASSAGE collecting and processing parent and child information for transportation, safety, safeguarding, and emergency response purposes.
- You agree to the PASSAGE Terms of Service, Privacy & Child Data Protection Notice.

2. Rider Registration

Step 1: Rider Account Creation (Mandatory)

The rider creates an account by providing:

- Full Name *
- National ID Number *
- Phone Number *
- Alternative Phone Number
- Date of Birth *
- Residential Area *
- Stage / Boda Association *
- Years of Commercial Riding Experience *

Step 2: Identity Document Upload (Mandatory)

The rider uploads: (Enable camera and file upload options)

- National ID (Front) *
- National ID (Back) *
- Passport Photo *

- Driving Permit *

Step 3: Verification Authorization (Mandatory)

Before submission, the rider authorizes PASSAGE to conduct verification activities.

The rider confirms:

- ☐ I authorize PASSAGE to verify the information I have provided, including conducting community vetting and reference checks where necessary.
- ☐ I understand that rider approval is subject to successful verification and compliance with PASSAGE onboarding requirements.

(Placeholder Terms are provided below)

PASSAGE Rider Policy, Privacy & Consent Framework (Placeholder Content)

(This section contains placeholder policy content for rider onboarding workflow design. Final legal, compliance, and policy content will be developed with appropriate legal input and provided separately prior to production deployment.)

PASSAGE collects rider information for onboarding, verification, compliance, safety, and operational purposes.

All information is accessible only to authorized PASSAGE personnel and is protected in accordance with applicable data protection requirements.

PASSAGE does not sell, rent, or share rider information with third parties for marketing purposes.

Rider information may only be disclosed:

- Where required by law
- To regulatory authorities where required
- To authorized service providers operating under appropriate confidentiality and data protection obligations

The rider confirms:

- ☐ I have read and agree to the PASSAGE Privacy Policy.
- ☐ I consent to PASSAGE collecting, processing, storing, and using my information for onboarding, verification, safety, compliance, and operational purposes.

Outcome: Pre-Qualified for Physical Verification

System Design Considerations

Consideration may be given to designing the platform to support:

- Display of policy and legal documents
- User acknowledgement and consent capture
- Policy version management
- Recording and maintaining an auditable history of policy acknowledgements and acceptances
- Storage of consent records linked to user accounts
- Easy updates to policy content without major system changes
